COURSE DESCRIPTION

This course is designed to introduce and analyze the structure, operations and functions of the financial system. The course starts with an introduction to financial markets' role in the economy, and the determination of interest rates and valuation of cash flows. The course then discusses various financial markets including money markets, bond markets, mortgage markets, stock markets and derivatives markets. Financial institutions will be discussed with an emphasis on their major functions and operations.
COURSE OBJECTIVES

1. To provide an overview of major financial markets and financial institutions.
2. To develop an understanding of the basic concepts in banking and finance and their applications.
3. To increase the understanding of real-world challenges in financial markets.
4. To prepare for the next level of finance course.

FACULTY GOALS

Goal 1: Acquisition and internalization of knowledge of the programme discipline.
Goal 2: Application and integration of knowledge.
Goal 3: Inculcating professionalism and leadership.
Goal 4: Developing global outlook.
Goal 5: Mastering communication skills.

REQUIRED/RECOMMENDED READINGS & ONLINE MATERIALS (e.g. journals, textbooks, website addresses etc.)
### Required Textbook:
Financial Markets and Institutions, by Frederic S. Mishkin and Stanley G. Eakins (ME), 8th edition, Pearson Education

### Lecture Notes and Assigned Readings:
Before each class students can download the lecture notes from the course website. Supplementary required and optional readings and other materials may also be distributed during classes and tutorials.

### MEANS/PROCESSES FOR STUDENT FEEDBACK ON COURSE

### COURSE POLICY (e.g. plagiarism, academic honesty, attendance, etc.)

**Academic Honesty**

- **Plagiarism** ([http://www.rss.hku.hk/plagiarism/](http://www.rss.hku.hk/plagiarism/))

  "A candidate shall not engage in plagiarism nor employ nor seek to employ any other unfair means at an examination or in any other form of work submitted for assessment as part of a University examination. Plagiarism is defined as the unacknowledged use, as one's own, of work of another person, whether or not such work has been published."

  "In this University, plagiarism is a disciplinary offence. Any student who commits the offence is liable to disciplinary action."

  You are strongly advised to read the booklet "What is Plagiarism" ([http://www.rss.hku.hk/plagiarism/](http://www.rss.hku.hk/plagiarism/)) and to consult your teachers if you have any questions about how to avoid plagiarism.

- **Cheating**

  Cheating is another very serious academic offence. Any student who commits cheating on homework assignments or final examination will receive a grade “F” for the whole course. In addition, the case will be reported to the relevant Board of Examiners and/or the Senate of the University for further actions.

- **Class Attendance**

  To maximize learning experience, students are strongly recommended to attend all the lectures and tutorial classes, submit the homework assignments on time and participate actively in the term project. Based on the records of the past semester, the correlation between course performance and attendance rate in lectures was very high. The work load of this course is quite heavy and students are expected to spend at least 130 contact hours as described above.

- **Class Conduct**

  The guiding principle governing class conduct is mutual respect. All mobile phones must be switched off or on silent mode. No eating or drinking is allowed. Students should not disturb others in class.

### ADDITIONAL COURSE INFORMATION (e.g. e-learning platforms & materials, penalty for late assignments, etc.)
