FACULTY OF BUSINESS AND ECONOMICS  

Course Syllabus and Outline for Semester 1 of 2018-2019  
ACCT3103: Intermediate Financial Accounting II  
Subclasses A& B  

I. INFORMATION ON INSTRUCTOR AND TUTOR  
Instructor: Dr. Lilian Chan  
Office: KKL1208  
Office Tel: 3917-4217  
E-mail: lchan@business.hku.hk  
Office Hours: Friday 9am – 11am; or by appointment  
Teaching Assistant: Miss Amy Lee (KKL609; Office Tel: 3917-4833; email: amyleesw@hku.hk)  

II. COURSE INFORMATION  
(i) Prerequisite: ACCT2102 Intermediate Financial Accounting I  
(ii) Course Descriptions: This course is a continuation of Intermediate Accounting I. Topics examined include debt financing, equity financing, income taxes, leases, dilutive securities and earnings per share calculations, and derivatives and hedging activities. While the primary emphasis will be on Hong Kong practice, financial accounting and reporting practice in U.S. and China will also be discussed from time to time throughout the semester. We will also discuss the accounting principles and standards based on International Accounting Standards (IAS). Since 1993, IAS has been the basis for all new standards adopted in Hong Kong. In addition, IAS is providing the framework for the development of accounting standards in China.  
(iv) Lecture Notes: Powerpoint notes are available on the course Moodle. You are responsible for downloading and printing them in advance for each class.
(v) **Program Learning Outcomes (PLOs):**

- **PLO1.** Acquisition and internalization of knowledge of accounting, business and economics
- **PLO2.** Application and integration of knowledge
- **PLO3.** Inculcating professionalism and leadership
- **PLO4.** Developing global outlook
- **PLO5.** Mastering communication skills

(vi) **Course Learning Outcomes (CLOs)**

(vii) **Teaching and Learning Activities (TLAs)**

**TLA1. Situation: Interactive Lectures**
- Lecture on major concepts and issues: Interactive lectures with PowerPoint slides are conducted with the lecturer explaining and illustrating the concepts. Students will be invited to share their views in applying the concepts.
- In-class exercises: Basic concepts and techniques are illustrated using examples. Students work along with the lecturer to solve the problems. These exercises help students follow the lectures closely and actively.
- In-class discussion: Sometimes discussion questions will be raised by the lecturer. Students are encouraged to participate in discussions and share views with their peers. These discussions encourage students to think more for certain arguable topics.

Major focus: ILOs 1, 2, 3 and 4

**TLA2. Situation: Tutorials**
- The one-hour tutorial will review select weekly tutorial problem set and elicit your answers on them. There will be no tutorials in weeks 1 and 2. In addition, a portion of the tutorial will be spent on review of key concepts and techniques presented in the previous week’s lecture.

Major focus: ILOs 1 and 2

**TLA3. Situation: Group Project Analysis and Presentation**
- Students are to form ten groups of six to seven people. Each group has to nominate a leader who will be responsible for notifying me of the work progress and consult me on problems faced by the group. Please submit the membership list on Moodle
no later than Friday, September 28, 2018. If you are not in any groups, then I will form a group for you by random matching. Group list will be posted on the Moodle after Friday, October 5, 2018.

- Each team member is expected to make sincere contribution to the group. To avoid having free-riders in your group, a peer-evaluation may be conducted at the end, so that you will have a chance to evaluate each of your group members’ performance and contribution to the group. Ratings of you and comments from your peers will be taken into account when determining your final grade in your group work. You should provide the most candid evaluation of each of your group members. The evaluation will be submitted to me directly and will be kept confidential.
- Each group is responsible to make a 20-minute presentation of a financial statement analysis report on a specified publicly listed company in Hong Kong. The specified company will be assigned on a random draw basis. The instructions will be posted on Moodle in early October. Once the company is assigned, each group should meet outside the class to analyse the company, assign responsibility for the presentation and hand in the presentation slides immediately after the presentation.
- Your presentation slides should be typed and well written, and your analysis should be logical, clear and precise. Please be sure all members of the group are identified on the first page of the slides.

**Major focus: ILOs 1, 2, 3, 4 and 5**

**TLA4. Situation: Outside-Classroom Activities**

- Group discussions: Group members meet to work on the assignment and group presentation as a team and contribute jointly to preparing the written solutions and report.

**Major focus: ILO 5**

**AT1. Class Attendance, Participation and Assignments (15%)**

Attendance will be taken for both lectures and tutorials. The attendance and individual sharing in class will be considered in assigning points for attendance and individual participation. The tutor will lead and initiate the discussion of the homework assignments at the tutorial sessions. Assignments will be collected on an individual basis. Students are required to hand in two assignments in the tutorial session and are responsible for participation in the discussion of the corresponding homework assignments. Assignments will be assigned on a random draw basis. The
assignments will be graded based on the accuracy and clarity of the written report. Dates for the discussion of assignments are listed on the course outline. Homework assignments are put on Moodle. You are responsible for downloading and printing them.

AT4. Exams (70%)
There will be a mid-term exam and a final comprehensive exam. The mid-term exam will be held in late October (exact date will be confirmed). It will be one hour and 15 minutes in length and will cover chapters 14, 15 and 18 in the textbook.

The final exam will be two hours in length and will be given on a date to be announced by the University later. It will be comprehensive of all course topics and materials.

Please ensure that you are available to sit for the exams at the scheduled date and time, as extra-curricular activities will not provide sufficient grounds for deferrals. It is not contemplated that you will miss an exam. No provision has been made for a make-up exam. Absences will be dealt with based upon the circumstances. All exams are closed book. You must have your student photo-ID to take an exam. All calculators brought into the exam room may not have any information stored in memories and covers must be removed.

III. COURSE POLICIES

Class Conduct
Respect your instructor and your fellow students. Be considerate to others.

Students are required to attend all classes (Lecture and Tutorial Sessions) on time and should not enter the classroom 15 minutes after the class scheduled starting time. If you have to leave the class early, please inform the instructor before the class begins. Please sit near the door and exit quietly. If you fail to inform the instructor before you leave, no credit will be given for your class attendance.

Students are encouraged to ask questions and to participate in the class as well as in the tutorials. At the same time, maintaining discipline is of utmost importance in this course. Please observe the following class rules when the class is in session:

1. Do not talk to your fellow students.
2. Do not read newspaper or magazine.
3. Do not use your hand phone (please turn off your hand phone).
4. Do not leave the class without permission.

Any violation of these class rules will be subject to point reduction (e.g., 1 point for each violation) and possible dismissal from the class.

Academic Dishonesty
The University Regulations on academic dishonesty will be strictly enforced! Please check the University Statement on plagiarism on the web:
http://www.hku.hk/plagiarism/

Academic dishonesty is behaviour in which a deliberately fraudulent misrepresentation is employed in an attempt to gain undeserved intellectual credit, either for oneself or for another. It includes, but is not necessarily limited to, the following types of cases:

- **Plagiarism** – The representation of someone else’s ideas as if they are one’s own. Where the arguments, data, designs, etc., of someone else are being used in a paper, report, oral presentation, or similar academic project, this fact must be made explicitly clear by citing the appropriate references. The references must fully indicate the extent to which any parts of the project are not one’s own work. Paraphrasing of someone else’s ideas is still using someone else’s ideas, and must be acknowledged.

- **Unauthorized Collaboration on Out-of-Class Projects** – The representation of work as solely one’s own when in fact it is the result of a joint effort.

- **Cheating on Exams** – The covert gathering of information from other students, the use of unauthorized notes, unauthorized aids, etc.

*If you are caught in an act of academic dishonesty or misconduct, you will receive an ‘F’ grade for the subject. If your group assignment submitted has been discovered to be an exact copy of someone else’s work, your group will be subject to the penalty for the act of plagiarizing or copying.*
