A Summary of Undergraduate Programmes
A Wide Selection of Programmes

6781 Bachelor of Business Administration [BBA] / Bachelor of Business Administration in Accounting and Finance [BBA(Acc&Fin)]

The BBA and BBA(Acc&Fin) programmes share the same Joint University Programmes Admissions System (JUPAS) code. Students are required to enrol in either one of the two programmes upon admission.

The BBA programme combines strong functional training with intensive exposure to communication skills, computer applications, and other social science and/or science subjects. Students can choose to major in the following areas:

- Business Design and Innovation
- Human Resource Management
- Information Systems
- Marketing
- Wealth Management

Students may also declare a minor or a second major if they are able to meet the respective requirements.

The BBA(Acc&Fin) programme prepares students for a professional qualification in accounting and provides the broad-based education necessary to progress toward a leadership role in the financial sector.

The BBA(Acc&Fin) programme is one of the three local accounting programmes accredited by the Association to Advance Collegiate Schools of Business (AACSB). It is also accredited as an approved accounting programme by the Hong Kong Institute of Certified Public Accountants (HKICPA), the Association of Chartered Certified Accountants (ACCA) and CPA Australia. Graduates are recognised by the HKICPA as accountant degree holders who have fulfilled the stipulated pre-entry educational requirements. They will be qualified as professional accountants by successfully completing the HKICPA Qualification Programme (QP) and obtaining the relevant work experience. They are also eligible to obtain maximum exemptions from professional examinations and will be qualified as members of the ACCA by successfully completing the required examinations and obtaining the relevant work experience.

6793 Bachelor of Business Administration (Information Systems) [BBA(IS)] [in conjunction with BEng(CompSc)]

Jointly offered by the School of Business and the Department of Computer Science, the BBA(IS)/BEng(CompSc) double-degree programme blends two strategic disciplines into a single programme for the ambitious and highly motivated. Students enrolled in the BBA(IS) programme may pursue two degrees over five years. The programme is suitable for students seeking a broader education with special focus on the synergy between business studies and information systems.

6808 Bachelor of Business Administration (Law) and Bachelor of Laws [BBA(Law)&LLB]

Jointly offered by the School of Business and the Faculty of Law, the BBA(Law)&LLB integrated double-degree programme blends two strategic disciplines into a single programme for the bright and highly motivated. It is an excellent choice for students seeking a broader education with parallel concentration on legal and business studies. Graduates of the programme will be awarded two degrees—BBA(Law) by the Faculty of Business and Economics, and LLB by the Faculty of Law. The LLB degree is a basic requirement needed to pursue a legal career. After successful completion of the LLB programme, students may apply for admission to the Postgraduate Certificate in Laws (PCLL) programme provided that they meet the relevant admission requirements.
The programme has also been accredited by the Hong Kong Institute of Certified Public Accountants (HKICPA). Students may declare a professional core in accounting and would thus be eligible to qualify as professional accountants by successfully completing the HKICPA Qualification Programme (QP) and obtaining the relevant work experience.

**Bachelor of Business Administration (International Business and Global Management) [BBA(IBGM)]**

The BBA(IBGM) is an intensive, premier programme in international business and global management featuring a unique curriculum designed to evolve with and reflect the ever-changing demands of a globalised world. Exclusive elements such as overseas exchange studies, international field trips and global enrichment opportunities are strategically integrated into the curriculum, whilst students are given the flexibility to pursue an in-depth inquiry into another specialised area of study as a second major. This cross-functional and personalised approach aims to foster a selected group of outstanding students to become the world’s future leaders equipped with global perspectives, cultural sensitivity, social responsibility and key competencies to succeed in the international business environment.

**Bachelor of Economics [BEcon] / Bachelor of Economics and Finance [BEcon&Fin]**

The BEcon and BEcon&Fin programmes share the same JUPAS code. Students are required to enrol in either one of these programmes upon admission.

The BEcon programme trains students in economic theory, statistical tools, and the application of theory to solve practical economic problems in trade, banking and the labour market. Students will also learn to evaluate the regional economic performance of China, Hong Kong and other economies. Students will be furnished with solid theoretical and empirical economic knowledge to analyse and understand human behaviour and social interactions. The programme allows students a high degree of flexibility in planning their future career specialisation. Students may also declare a minor or a second major if they are able to meet the respective requirements.

The BEcon&Fin is a double-major programme designed to meet the interests of students who are seeking a balanced study of both economics and finance. The programme recognises the significance of economics both in its own right and as a foundation for the study of finance, and the significance of finance as a career path for students who are keen on joining this profession. Students will receive solid training in theory and applications of economics and finance. They will be equipped with skills in analysing human behaviour and social interaction, as well as solving problems in the financial sphere.

**Bachelor of Science in Quantitative Finance [BSc(QFin)]**

The BSc(QFin) is a specialised programme that emphasises the application of mathematics, computer programming, and statistics to financial problems such as asset pricing and trading, portfolio management, financial engineering and risk management. The training from this programme not only prepares graduates to pursue challenging careers in the financial sector as financial engineers, risk managers, structured product designers and hedge fund managers, but also provides a strong foundation for them to pursue further studies in finance and economics. Despite its technical nature, the programme is designed to strike a balance between quantitative knowledge and broad-based education.
Admission Criteria (HKDSE)

For BCon/BEcon&Fin, BBA/BBA(Acc&Fin) and BBA(IBGM) programmes:
Candidates applying on the strength of the Hong Kong Diploma of Secondary Education (HKDSE) are required to fulfil the Faculty Entrance Requirements as shown below:

LEUNG Ming Sum, BBA(IBGM) 2013 Graduate
On exchange to King's College London, U.K., 2011-12

My overseas exchange to the U.K. has been a truly rewarding and memorable experience. It has inspired me intellectually through academic exchange, expanded my cultural horizons and helped me to achieve personal growth by developing into a more mature and independent person. I sincerely value the exposure this overseas exchange has offered me and I look forward to more international education opportunities.
