### HKU MBA Highlights

#### Regional Perspective – In the Heart of Asia

Our Asia-Pacific focus, will give you a distinct advantage in building your career in the region, or indeed anywhere in the world, as Asia now lies at the centre of many business ventures worldwide.

#### The China Factor

The HKU MBA’s dual focus on Asia and China business renders the programme highly relevant to the wider region’s dynamic, ever-evolving business environment. The China focus is achieved through special courses with China elements, regional case studies, field trips, seminars and conferences, Chinese language training and company visits.

#### Case-Based Approach

The HKU MBA programme adopts an experiential-learning approach, with the extensive use of business cases that enables students to become effective problem-solvers and decision-makers. These cases are written by our own professors and are published by our renowned Asia Case Research Centre (www.acrc.org.hk).

#### Mentorship & Buddy Programme

This programme connects current students to senior professionals to build mentor-mentee relationships. Students can obtain real-life business knowledge from senior executives and top business leaders. The real case sharing and professional insights from experienced mentors offer students an engaging and enriching learning experience. Recent graduates engage with students as buddies in sharing their information about studies, school experience and networking in Hong Kong.

#### Small Class Size & Collaborative Culture

The programme’s relatively small class size along with diverse profiles allow for extensive interaction and collaboration.

#### China Immersion Programme

As many of our students are preparing for careers in China, this programme will help them to build language capabilities, better understand a different business system and expand networks in the region. The course is composed of company visits, language training, executive talks, alumni sharing sessions and cultural activities. Most importantly, the entire cohort will be together in Beijing resulting in better team spirit, communication and networking amongst the group.
