4. Renowned professors with strong regional business and industry experience.
5. Possibility of spending a semester at London Business School or Columbia Business School.

Career Progression Workshop

The Career Progression Workshop is purposely designed for our Part-time MBA students to equip them with the competencies required to lead successfully in organisations. Through a series of thought-provoking workshops, students discover how to put what they have learned into practice and fully utilize their leadership and communication talents in the workplace. These workshops may cover the following areas:

- Résumé and Interview Skills Enhancement
- Executive Presence
- Collaboration and Positive Relations
- The Power of Networking for Career Success

International Field Trip

International field trips are part of the course and help our students understand business dynamics in different economies. The field trips include visits to universities to get academic input, and also visits to companies and institutions to see how different business practices and norms operating in those countries might be adopted and how they could benefit companies. Another advantage of the field trip is the opportunity for the students to engage in discussion and learning in a dynamic environment.

In the past few years, we have organised numerous international field trips in Asia and Europe. (Destinations of the field trips might vary year by year.)
