Our Campuses

The HKU Business School provides a dynamic and conducive environment for learning, teaching and research. Advanced facilities are provided on the three campuses located in the HKU Main Campus, Cyberport and Admiralty Town Centre.

Cyberport Campus

Located at the flagship of Hong Kong’s digital industry—Cyberport, the School’s facilities at Cyberport include state-of-the-art classrooms, group meeting rooms, and social areas for postgraduate students and learning partners from corporates that collaborate with the School. This is a place where university and business communities can come together and inspire innovations.

HKU Main Campus

The Headquarters of the HKU Business School is located at K.K. Leung Building in the HKU Main Campus. In addition to facilities such as lecture theatres, classrooms, computer laboratories and other areas for academic activities, the campus is also home to many research centres and institutes under the School. The Main Campus also features other learning facilities, resources and services needed in university life.

Town Centre Campus

Located at the heart of the city, Admiralty Town Centre Campus brings the resources of the School to one of the financial districts in Hong Kong. Apart from featuring cutting-edge facilities such as executive classrooms, meeting rooms and comfortable lounges, this downtown campus is a convenient location for hosting events and seminars, and connecting students, alumni and partners from all over the world.
Modular Calendar
Courses are offered on a modular basis to allow students to focus on 1-2 courses at a time. Normally, each module consists of six to eight weeks including the examination week.

Master of Science in Business Analytics Overview

Rise to the Challenges of Big Data

The Master of Science in Business Analytics programme at the HKU Business School offers a comprehensive curriculum that includes understanding data, transforming data into information and converting information into executable actions. There is currently an unprecedented industry demand for business analytics professionals, and the school offers core analytics and quantitative competencies and skills, along with an extensive range of elective options to allow students to proceed in many specific focus areas. The programme boasts a real world business analytics project with reputable corporations in the region and offers a summer boot camp for those looking to equip themselves with the quantitative knowledge and skills necessary to excel in this programme.

What is Business Analytics?

What prerequisite skills do I need to apply for the Master of Science in Business Analytics programme?

We welcome applicants from all fields. However, applicants with a strong background in both STEM (Science, Technology, Engineering and Mathematics) and business skills would have an advantage.

What is the purpose of the boot camp?

We admit applicants from diverse backgrounds each year to enrich our students’ learning experience. To ensure that every student has the foundational knowledge and skills required to tackle the academic challenges ahead, the boot camp covers basic knowledge of mathematics (calculus and linear algebra), statistics and programming (Python, R, and SQL). The boot camp is optional, although almost all students in prior cohorts have participated in it.

What skills will I develop in this programme?

Our curriculum design aims to help students develop both hard and soft skills related to business analytics throughout the programme. Students will develop technical skills such as data acquisition (web scraping), data visualisation (Tableau), data management (SQL), statistical programming (R and Python) and machine learning/deep learning, as well as business skills such as communication, critical thinking, teamwork, and leadership. Our programme offers courses focusing on all types of data analytics including descriptive analytics, predictive analytics and prescriptive analytics.

How does the capstone project work?

The capstone project course is one of the most special features of this programme. Students form a team and apply analytics knowledge and skills learnt in previous courses to solve a real-life business problem facing our project sponsors. We have collaborated with over 30 companies or government agencies in the past three years’ capstone projects. Students will have an opportunity to gain valuable project experiences through analysing the internal data provided by our project sponsors and external data collected by students themselves. Working in a team environment also allows students to develop key soft skills such as work ethic, communication, teamwork and leadership.
**Scholarship**

Entrance Scholarship

We offer merit-based scholarships to qualified students, who may receive a scholarship ranging from 10% to 50% in most cases. All eligible candidates are automatically considered; no separate application is required.

Fargo Wealth Excellence Scholarship

Up to 10 scholarships shall be awarded, starting from the academic year 2021/22. Ten (10) students, available to all masters programmes offered by the HKU Business School on the basis of academic performance in the respective programmes and their contributions to the community of masters programmes. The Scholarship shall be of the value of HK$10,000 each.

---

**Prof. Haipeng Shen**

- Business Statistics • Business Analytics Capstone

Can students get connected with business clients and work on their analytics projects in a team working environment before graduation? The answer is YES! The Business Analytics Capstone course matches teams of students with business clients and offers them the opportunity to engage in various stages of a real analytics project, supervised by a faculty advisor and client representatives. They will get their hands dirty and experience a live preview of what their work life will look like while still being students.

---

**Boot Camp**

**Purpose:**
To ensure that everyone has the foundational knowledge and skills required to tackle the academic challenges ahead.

**Duration:** 1 week

**Mode:** Interactive lectures

Companies increasingly look for business analysts with a geospatial mindset and toolbox to unlock opportunities of growth and better customer services. Our course on Geospatial & Business Analytics introduces the basic knowledge of geospatial data, systems and methods. It helps students develop skills such as data processing, descriptive analysis, and advanced predictive and prescriptive analysis, in order to tackle challenging problems related to location, the “where” aspect that concerns all kinds of businesses.

---

**Prof. Zhixi Wan**

- Geospatial & Business Analytics

---

**Tuition Fee**

$330,000* A deposit of HK$185,000* is required to confirm the admission offer, the balance shall be payable in two instalments over one academic year.

---

**Four Core Courses**
- Business Intelligence and Analytics
- Business Statistics
- Quantitative Analysis Methods
- Operations Analytics

**Five Elective Courses**
- Accounting Analytics for Managerial Decisions
- Geospatial & Business Analytics
- Business Simulation
- Entrepreneurial Opportunities in Financial Technology
- Financial Engineering
- Forecasting and Predictive Analytics
- Managing and Mining Big Data
- Database Design and Management
- Prescriptive Analytics
- Service Operations Management
- Social Media and Digital Marketing Analytics
- Supply Chain and Logistics Management
- Marketing Analytics

**Other Masters Programmes Elective Courses**

Master of Accounting
Master of Economics
Master of Finance

Master of Finance in
Financial Technology
Master of Global Management
Master of Science in Marketing

---

Remarks: Not all the courses listed above will necessarily be offered each year and the above list is subject to further adjustments.

Up to two elective courses may be taken from other taught postgraduate programmes offered by the School, subject to availability and review by the Programme Director based on your profile, capabilities, and performance in the MSBA programme.

* Subject to change and final approval by The University of Hong Kong.

**Oscar Tong**

Business Analytics Associate Manager, HSBC (Class of 2019)

The capstone project allowed me to utilise my skills in real life. I was lucky to be selected for the HSBC capstone project in which we studied the trade war impact on a global scale to discover whether companies would be of potential benefit or risk to HSBC. In addition to doing our own research about the industry, we also had the chance to understand it more in-depth through our bi-weekly client meetings. With the details, we created and ran several models to reveal the potential impact of the companies. I think the most interesting part is getting to face an actual challenge, such as you would in your career, but with a safety net. For example, what to do if you can't find the right dataset, which methodology you should use, what is the right interpretation, etc. The best thing is you can relay these problems to your professors who will assist you anytime if needed.

**Nicole Niu**

Department Manager, Consumer and Market Knowledge, P&G (Class of 2019)

Our group was assigned to handle the project from Tencent HR department’s Vitality Laboratory. We worked at the Tencent Mansion in Shenzhen together with their employees. This was very valuable as not only was I able to experience working life after graduation, but I also used my networking skills to build relationships with their employees.

Our group’s project at Tencent was to help their HR department create a programme with two major goals. One was to increase the efficiency of their recruitment process by creating a user-friendly interface. The second was to help them make better hiring decisions. This was achieved by analysing the interview and assessment test data to predict the percentage rate of hiring, retention, and breach of contract by employees. Fortunately, we had learned various models in our previous MScBA courses which helped build our foundation for the project. In order to meet Tencent’s requirements, we had to enhance our algorithm skills and learn MockingBot (a user interface software programme). To top up our game, we utilised Scikit to create our final presentation to Tencent’s leadership. The Capstone course was really a joint team effort from all our group members and we were pleased to get the recognition from our assessors. At the end, Tencent’s leadership invited us to continue to support the project in the implementation stage.

Application Process

1. Access Taught Postgraduate Online Application System and create your application account.
2. Fill in the application form and provide referee details.
3. Pay HKD300 non-refundable application fee.
4. Upload documentation before the expiry of your application account.
5. Send reference from template to your 2 referees.

Admission Requirements

To be eligible for admission to our programme, you must:

1. Obtain a TOEFL/IELTS score if you are not from an English-medium university.
2. Obtain statements from two referees, regarding suitability for the programme.
3. Hold a recognised Bachelor’s degree or equivalent.

Minimum score requirements:

- TOEFL: 80
- IELTS: 6

GMAT/GRE scores are not required, but candidates with a good GMAT/GRE score or possessing a business Bachelor’s degree or have business related work experience will be favourably considered.

Apply Here

- Graduate transcript / interim transcript if graduate transcript is not available yet
- Graduate Certificate, if available
- Latest CV
- Award certificate/degree certificate, applicable to candidates from Mainland institutions only
- TOEFL or IELTS report that was taken within 2 years before your application submission, if you are not from an English-medium university
- GMAT / GRE score report, if applicable
- Certificates for professional qualifications (e.g., ACCA, CPA, CFA), if applicable
- Proof of internship experience of all positions, or most recent full-time employment, whichever is applicable

Remarks:

- Application with missing supporting documentation will be considered incomplete and will not be further processed.
- In the application stage, the original copy of supporting documents is NOT required and candidates only need to upload the softcopy to the application website. If you receive an admission offer from our programme, we will ask you to submit the original/attested true copy of the documents.
- Due to the large volume of applications received by HKU, your application account will only be valid for four weeks. You should submit your application within the period; otherwise, your application will be lost.
- Admission process normally takes 8 weeks after application deadline. For a more detailed steps, please refer back to the Master Programme website.
The HKU Business School has a dedicated team that prepares our masters students for success in the world of work.

Leveraging our networks and resources, we aim to provide top-notch career services that help students explore and understand the industry sectors they are most interested in, and evaluate options based on their profile and aspirations; help students develop a realistic career plan by facilitating the planning and execution of their personal career exploration and strategies; and help students enhance their skills, competencies and confidence necessary in the world of business.

We value partnerships, and work tirelessly in reaching out to the community and corporate, both local and in the region, for all forms of collaboration, particularly that in terms of knowledge sharing and talent acquisition. Many of the related events and job opportunities are exclusive to HKU Business School masters students.

90% secured employment within three months after course completion.
