GENERAL INFORMATION

Pre-requisites:
This course is open to all students at The University of Hong Kong. However, since resources are limited, students must be very proactive and have strong motivation of completing the course with significant effort. You are required to possess the following pre-requisite skills and knowledge in order to cope with the challenging real-life business projects:

- above average time management and task prioritization skills;
- good interpersonal and communication skills;
- strong organizational skills with the ability to work independently and self-motivate; and
- good analytical skill and the ability to strategize and manage across teams and projects.

Students may be invited to interview for the evaluation of these prerequisite skills and knowledge.

COURSE DESCRIPTION

This is a 6-credit experiential learning course that will give students an opportunity to work directly for social ventures under the guidance of a faculty instructor and professional mentors. You should have opportunities to manage tasks, solve real-life problems, and gain hands-on business experience, which will strengthen your soft skills, help you implement academic business concepts in a practical way, and greatly improve your ability to compete in the job market.

What is social entrepreneurship?
Social entrepreneurship is one of the most exciting business trends over the past several decades. By combining the efficiency of business education with the nobility of helping society, many hope that social ventures will be able to help to cure ills suffered by the most vulnerable. The importance of social entrepreneurship is gaining recognition worldwide, and is increasingly popular in Hong Kong.

How will this course work?
In this course students will have an opportunity to manage within real social ventures. Each student will have opportunities to apply academic principles learned previously, but will also be confronted with real-life issues and problems for which they may be unprepared. Students will engage in problem solving and business building within a supervised learning environment, enabling real life skills development and personal growth.

Although there are no specific prerequisites, students must be pre-selected based on relevant experience. Thus, you should already have many of the academic business skills necessary to participate in the internship course, e.g., having already taken courses in accounting, marketing, and other relevant subjects.

PROGRAM LEARNING OUTCOMES

STANDARDS FOR ASSESSMENT

Rubrics for Each Assessment Method

During the first two weeks of the internship period, students must create a semester-long “Action Plan” that they will present to their assigned company, course instructor, and teaching assistant. The “Action Plan” functions as a mutual agreement between the student, GM, and course instructor, clearly defining the scope of each student’s responsibilities and goals to be achieved. This Action Plan will be the basis for tasks performed, and should be reviewed and updated as the semester goes on. The Action Plan should be considered a “living document,” meaning that it can and should be updated as the internship progresses, particularly as the scope of student responsibilities change.

Scoring Criteria:

A2. Weekly Reports [20%]:

Students are required to write and provide weekly reports to their supervisor/manager and course instructor capturing their perceptions, analysis, and integration of concepts and experiences relating to business management and service leadership. These reports should be focused both inwardly and on task competencies. The reports will be evaluated as follows:

- 20 points (pts) total over 10 weeks (2 pts/week, not including the first 2 weeks of the semester & reading week):
  - 1 point for working 10 hours for that week (unless otherwise agreed with your supervisor)
• 1 point for a sufficiently comprehensive report in the suggested format (ask course TA for examples as needed)

NOTE: late weekly reports without prior approval or valid excuse based on the University policy (e.g., illness, etc.) will be given zero marks.

A3. General Manager Report [50%]:

Students should receive multiple feedback reports from the general manager during the semester. Moreover, students should actively seek feedback and suggestions for improvement. Based on such feedback and follow-up conversations between the manager and the course instructor, the course instructor will assess the work performed by the student during the internship period. [Note: if you are not receiving periodic feedback from your manager, please notify the course instructor immediately.]

Scoring Criteria: See evaluation form for assessment details, to be provided by course instructor.

A4. Video Assignment [25%]:

Students will create and post a video highlighting relevant aspects of the internship experience, or the company/project for which the students worked. Unless approved by the course instructor ahead of time, students can work individually or in groups of not more than 3 people.

Scoring Criteria: See Video Assignment instructions, to be provided by course instructor.

**COURSE POLICY** *(e.g. plagiarism, academic honesty, attendance, etc.)*

**Academic Honesty and Integrity**

You are expected to do your own work whenever you are supposed to. Incident(s) of academic dishonesty will NOT be tolerated. Cheating or plagiarism of any kind will result in an automatic F grade for the course plus strict enforcement of all Faculty and/or University regulations regarding such behavior.

The University Regulations on academic dishonesty will be strictly enforced! Please check the University Statement on plagiarism on the web: [http://www.hku.hk/plagiarism/](http://www.hku.hk/plagiarism/).

Academic dishonesty is a behavior in which a deliberately fraudulent misrepresentation is employed in an attempt to gain undeserved intellectual credit, either for oneself or for another. It includes, but is not necessarily limited to, the following types of cases:

a. **Plagiarism** — The representation of someone else's ideas as if they are your own. Where the arguments, data, designs, etc., of someone else are being used in a paper, report, oral presentation, or similar academic project, this fact must be made explicitly clear by citing the appropriate references. The references must fully indicate the extent to which any parts of the project are not one’s own work. Paraphrasing of someone else’s ideas is still using someone else’s ideas, and must be acknowledged.

b. **Unauthorized Collaboration on Out-of-Class Projects** — The representation of work as solely one's own when in fact it is the result of a joint effort.

c. **Dishonesty about working hours, or other dishonesty with your team or supervisor** — Students are required to report their work and working hours each week to the course instructor and your direct supervisor. Lying about work completed or time spent on an assignment will be treated as though you cheated on an examination, and can result in a failing grade for the course.

**ADDITIONAL COURSE INFORMATION** *(e.g. e-learning platforms & materials, penalty for late assignments, etc.)*

This course will utilize the MOODLE framework.
COURSE SOCIAL CONTRACT

The Social Venture Management Internship Course is a special kind of course, and requires a special kind of student. You have been hand-picked for this course because we believe in you, and because you have made a commitment to work hard. Please take that commitment seriously.

Please note:

- Students must actively seek projects, and fill their time even when not actively supervised or managed. In other words, if you do not have enough to do, it is YOUR fault. So please stay in close contact with your manager and let him/her know when you do not have enough to do.

- Lying about working hours is considered cheating. Any student who is dishonest about their work in any way, including overstating working hours, will fail the course and be submitted for disciplinary action as a violation of HKU’s academic integrity policy. Please be honest about your work and your time. Each of these companies has plenty of work to go around. Be proactive and make the most of this experience.

- The internship will end automatically at the end of the semester. You hereby recognize that you are considered a “student intern” as defined under the Minimum Wage Ordinance, and therefore the Statutory Minimum Wage does not apply to you or the work you engage in during this course. Accordingly, you will not be paid for their work unless otherwise agreed with your respective companies in advance. And this course is not a guarantee or offer for future employment.

- Students who do not have a right to work in Hong Kong, in particular exchange students without a “No Objection Letter” from HK Immigration, shall not be provided formal internships. Your participation in this course will be structured as a school project, and your work will be adjusted accordingly, as necessary.

- Any intellectual property and work created as a direct result of your involvement in the course, including e.g., any research, reports, business plans, videos, designs, etc., are “work product” and will remain the property of the company or project leader for whom you created the items.

By signing below you indicate that you understand the items above and are willing to abide by all course requirements. In particular, you hereby agree to work a minimum of 10 hours, on average, per week.

NOTE: Students must agree to these terms when registering for the course, which will be done online.
Students taking BUSI2812 are required to produce a video as part of their course assessment. You can make the video about anything you want, but we strongly recommend producing a video that will benefit your company/project in some way, meaning you should collaborate with your supervisor/manager concerning the nature, voice, topic, etc., of your video. Unless otherwise approved, students can work individually or in groups of not more than 3 people.

**NOTE:** This video assignment is meant to be in addition to your internship work, and should not be a result of your normal internship workload. You may be asked to create a video as part of your regular internship workload, but such videos should not be submitted for this assignment unless previously agreed by the course instructor. Failure to comply with these guidelines will be considered cheating, and will subject you to academic discipline.

**Group Size:** Up to 3 people. Any groups with more than 3 people must be approved by the course instructor beforehand.

**Video Length:** At least 90 seconds, but no longer than 240 seconds (4 min). Videos that are shorter or longer than this should be approved beforehand.

**Video Topics:** You have broad discretion relating to the topic of your video, the software or process by which you make the video, who or what is in the video, the style of the video, etc. Some possible topics you could consider include:
- Marketing, storytelling, promoting, or otherwise highlighting the company for whom you worked
- Reflections on your work in the course
- Highlights of the work that you did for the company
- Introduction or thoughts about social innovation or social enterprise generally
- How your work promoted the UN’s Sustainable Development Goals

**Project Deliverables:** Students must submit three things for this assignment: (i) a Youtube video link (ii) a link for downloading the video (e.g., Dropbox or Google Drive) and (ii) a short write-up about the video, as described in the video submission form. Each should be submitted via the video submission form: [www.bit.ly/svm-video-form](http://www.bit.ly/svm-video-form)

**Useful Software:** You can use whatever tools and software at your disposal in the production of your video. But to help those students who have no prior experience in making videos, or do not have access to expensive equipment, the following software has been made available for your use:

- **Powtoon:** [www.powtoon.com](http://www.powtoon.com)  
  [Requires password if you want to remove the Powtoon mark – ask the TA for full access]

- **Adobe Premiere Pro:** Premiere Pro is free to use on many computers on HKU campus. (see, e.g., [http://www.les.hku.hk/teaching-learning/learning-space/mac-computers-in-the-learning-commons](http://www.les.hku.hk/teaching-learning/learning-space/mac-computers-in-the-learning-commons))

Additional information relating to available software can be found on the student Notion page (as Course TA for more info).

**Intellectual Property Considerations:** Please make sure to not illegally use anyone else’s copyrighted works or trademarks. *Videos that violate IP law will have significant deductions.* If you have questions about video footage, images, logos, etc., please ask the course instructor ahead of time.
